Raising Awareness of Parental Learning Disability – Impact on the Children

A One Day Multi-Agency Event

Who is it for?

All LSCB Training promotes that safeguarding and promoting the welfare of children is everyone’s responsibility. As such this course is relevant for practitioners and managers across the range of adult and children’s services and is for all practitioners who work with parents, carers, children and young people. The training is likely to be suitable for many staff in groups 2 – 8 of the working together guidance (page 125).

Aim

To increase the knowledge and skills of practitioners in order to more effectively safeguard the children of parents with a learning disability.

Objectives

- Raise awareness and understanding of learning disability and how this can impact upon parenting
- More effectively assess and manage risk to children where parental learning disability is a factor.
- Provide staff with knowledge about how Child and Adult Services should work together to support parents with a learning disability.
- Be able to locate local resources in order to ensure appropriate support and joint working.
Courses will be held on the following dates at venues across the County

<table>

<td>9.30am 4.30pm</td>
<td>To Be Confirmed</td>
</tr>
</tbody>
</table>

It is advised that participants have a basic awareness of safeguarding and knowledge of safeguarding processes before attending this course.

The completion of this training will support practitioners to evidence their continual professional development.

LSCB courses are locality based to give opportunities to network and build on effective working relationships. Therefore applicants, if possible, should select a course which is delivered in the area in which they work.
